## EDUCATION

### University of British Columbia

BComm. Business Technology Management, minor in Data Science

Vancouver, B.C.

*Expected Graduation: 2028*

## SKILLS

**Tools:** RStudio, Salesforce, PowerBI, Figma, Excel, Word, Outlook, Teams, Adobe Illustrator, Git/GitHub, Qualtrics, Notion

**Programming Languages:** JavaScript, SQL, Python (PyTorch, Pandas, NumPy, Matplotlib), R (tidyverse, dplyr)

**Hard Skills:** Data Management (data quality, metadata), SQL querying, Data lineage, Data dictionaries

## PROFESSIONAL EXPERIENCE

### youCode – University of British Columbia

Vancouver, B.C.

Lead Project Manager

*May 2025 - Present*

- Secured **\$20,500+** in sponsorships from SAP, Amazon, WillowTree and additional partners by **analyzing historical sponsor engagement data**, defining clear project requirements, and driving concise cross-functional communication.
- Delivered a **cost-saving sponsorship report** projected to reduce expenses by **\$3,000** by developing a contingency plan, modeling projected finances, managing the budget, and leading a research team to source high-quality products.
- Accelerated website completion by **2 months** by implementing a structured **SDLC framework** that clarified responsibilities, removed blockers, and improved cross-team coordination.

### The Africa Forum

Vancouver, B.C.

Project Manager

*Jan 2026 - Present*

- Improved team alignment by facilitating weekly governance meetings with **3+ departments** and strengthened SDLC progress tracking through detailed documentation, improving workflow visibility and traceability across teams.
- Led research on **20+ continental journalists** by analyzing publication reach, audience demographics, and relevance to our mission to identify high-impact candidates for the organization's website launch.
- Strengthened **brand consistency across communication channels** by collaborating with the design team to develop the first brand kit based on stakeholder requirements.

### AIESEC UBC

Vancouver, B.C.

Marketing Specialist

*Jan 2026 - Aug 2026*

- Organized a **2-month content pipeline** by using Excel to track **40+ outgoing student records**, documenting stories and timelines to streamline scheduling and improve campaign consistency.
- Ensured consistent brand identity by using AIESEC's official color palette and **collaborating with AIESEC national** for design approvals, resulting in cohesive and high-quality social media content.
- Created structured **data documentation**, workflow diagrams, and **feature-testing** notes that improved clarity across teams and reduced onboarding time for new contributors during the website development process.

### UBC Sauder School of Business

Vancouver, B.C.

Digital Media Content Creator

*Sep 2025 - Jan 2026*

- Improved campaign relevance by **24%** by auditing data dashboards, documenting low-performing segments, and restructuring workflows to prioritize high-retention formats.
- Increased content engagement by **15%** by analyzing demographic and geographic user data, identifying peak-activity patterns, and translating insights into targeted content strategies.

### Hennes and Mauritz AB

Vancouver, B.C.

Sales Advisor

*Apr 2025 - Aug 2025*

- Identified in-store demand patterns by analyzing **\$90K** in daily transactions and guided restocking decisions.
- Maintained **95%** floor availability by documenting stock discrepancies and communicating needs across **300+ items**.

## PROJECTS

### McKinsey Canada Future Leaders Academy – McKinsey & Company

- Worked with McKinsey teams on case simulations, strengthening communication, structured problem-solving, and team leadership through coaching, while also gaining insight into career planning, McKinsey's culture, and the impact of their work.

### BMO Wealth Case Competition – Top 22 Team Nationally (Figma Design, Canva Presentations)

- Delivered a proposal presentation to BMO outlining financial-planning tools, milestone-based workshop modules, and a structured growth framework designed to strengthen business sustainability and continuity, while highlighting opportunities to connect entrepreneurs with BMO resources and startup support.

### ShareBite: Food Distribution made easy – YouCode Hackathon (HTML, CSS, JavaScript, Figma)

- Designed a system to reduce community food waste by analyzing surplus food patterns to optimize data flows in restaurants, identify optimal pickup times, and improve operational efficiency of delivery routes.
